

## Jaguar Health to Present at BioTrinity 2023 Conference's R&D Spotlight on Rare Diseases

March 2, 2023

**Presentation will cover Jaguar and Napo Therapeutics' focus on development and commercialization of crofelemer for short bowel syndrome (SBS) and congenital diarrheal disorders (CDD)**

**Crofelemer has received orphan drug designation from the FDA and the European Medicines Agency for both SBS and a specific genetic abnormality resulting in a CDD condition**

**SAN FRANCISCO, CA / ACCESSWIRE / March 2, 2023 / [Jaguar Health, Inc.](#)** (NASDAQ:JAGX) ("Jaguar" or the "Company") today announced that Lisa Conte, the Company's founder, president, and CEO, is scheduled to present at the [BioTrinity 2023](#) conference in London on Tuesday, April 25, 2023 during the R&D Spotlight session on Rare Diseases. Ms. Conte is also Chairman of the Board of Napo Therapeutics, the corporation Jaguar established in Italy in 2021 with a mission to expand crofelemer access in Europe for the treatment and management of targeted orphan and rare disease indications.

"I look forward to attending BioTrinity to provide updates regarding Jaguar and Napo Therapeutics' efforts related to the development and commercialization of our oral botanical drug, crofelemer, for two devastating and often catastrophic orphan and rare diseases: short bowel syndrome (SBS) and congenital diarrheal disorders (CDD)," said Conte. "An estimated 30 million Americans and 30 to 40 million people in the European Union have a rare disease, and we are thankful that events like BioTrinity - and [Rare Disease Day](#), which was February 28th - help raise awareness about the millions of people worldwide living with one of the approximately 7,000 known rare diseases."

Crofelemer has received orphan drug designation from the FDA and the European Medicines Agency for both SBS and a specific genetic abnormality resulting in a CDD condition.

### **About Crofelemer**

Crofelemer is the only oral FDA approved drug under botanical guidance. It is plant-based, extracted and purified from the red bark sap of the medicinal *Croton lechleri* tree in the Amazon Rainforest. Napo Pharmaceuticals, Jaguar Health's wholly owned U.S. subsidiary, has established a sustainable harvesting program, under fair trade practices, for crofelemer to ensure a high degree of quality, ecological integrity, and support for Indigenous communities.

### **About Jaguar Health, Napo Pharmaceuticals, Napo Therapeutics & Jaguar Animal Health**

Jaguar Health, Inc. is a commercial stage pharmaceuticals company focused on developing novel, plant-based, sustainably-derived prescription medicines for people and animals with GI distress, including chronic, debilitating diarrhea. Jaguar Health's wholly owned subsidiary, Napo Pharmaceuticals, Inc., focuses on developing and commercializing proprietary plant-based human pharmaceuticals from plants harvested responsibly from rainforest areas. Our crofelemer drug product candidate is the subject of the [OnTarget](#) study, an ongoing pivotal Phase 3 clinical trial for prophylaxis of diarrhea in adult cancer patients receiving targeted therapy. Jaguar Health is the majority shareholder of Napo Therapeutics S.p.A. (f/k/a Napo EU S.p.A.), an Italian corporation established by Jaguar Health in Milan, Italy in 2021 that focuses on expanding crofelemer access in Europe. Jaguar Animal Health is a tradename of Jaguar Health.
