

## Jaguar Animal Health to Present at the 2015 LD Micro Conference on December 3rd in Los Angeles

November 23, 2015

SAN FRANCISCO--(BUSINESS WIRE)--Nov. 23, 2015-- Jaguar Animal Health, Inc. (NASDAQ:JAGX) ("Jaguar" or the "Company"), an animal health company focused on developing and commercializing first-in-class gastrointestinal products for companion and production animals, announced today that Steven King, Ph.D., Executive Vice President of Sustainable Supply, Ethnobotanical Research and IP, will present at the upcoming LD Micro Conference at the Luxe Sunset Boulevard Hotel in Los Angeles on Thursday, December 3, 2015 at 2:00pm PT (5:00pm ET).

The event will be available via live audio webcast and archived replay on Jaguar's [investor relations website](#).

Jaguar management will be available for one-on-one meetings during the conference. To schedule a meeting, please contact LD Micro at [chris@ldmicro.com](mailto:chris@ldmicro.com) or KCSA Strategic Communications at [jaguar@kcsa.com](mailto:jaguar@kcsa.com).

This December Jaguar will be launching its Neonorm™ Foal product at the American Association of Equine Practitioners Annual Convention in Las Vegas from December 5-9th. Neonorm™ Foal is a non-drug equine product comprised of an orally-administered paste formulation of a standardized botanical extract derived from the *Croton lechleri* tree, in combination with a third-party probiotic.

### About Jaguar Animal Health, Inc.

Jaguar Animal Health, Inc. is an animal health company focused on developing and commercializing first-in-class gastrointestinal products for companion and production animals. Canalevia™ is Jaguar's lead prescription drug product candidate for the treatment of various forms of diarrhea in dogs. Canalevia™ is a canine-specific formulation of crofelemer, an active pharmaceutical ingredient isolated and purified from the *Croton lechleri* tree, which is sustainably harvested. Neonorm™ Calf and Neonorm Foal are the Company's lead non-drug products. Neonorm™ is a standardized botanical extract derived from the *Croton lechleri* tree. Canalevia™ and Neonorm™ are distinct products that act at the same last step in a physiological pathway generally present in mammals. Jaguar has nine active investigational new animal drug applications, or INADs, filed with the FDA and intends to develop species-specific formulations of Neonorm™ in six additional target species, and formulations of Canalevia™ for cats, horses and dogs.

### Forward-Looking Statements

Certain statements in this press release constitute "forward-looking statements." These include statements regarding the expected commercial launch of Neonorm™ Foal this December, Jaguar's intention to develop species-specific formulations of Neonorm™ in additional target species, and the Company's plan to develop formulations of Canalevia™ for cats, horses and dogs. In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "expect," "plan," "aim," "anticipate," "could," "intend," "target," "project," "contemplate," "believe," "estimate," "predict," "potential" or "continue" or the negative of these terms or other similar expressions. The forward-looking statements in this release are only predictions. Jaguar has based these forward-looking statements largely on its current expectations and projections about future events. These forward-looking statements speak only as of the date of this release and are subject to a number of risks, uncertainties and assumptions, some of which cannot be predicted or quantified and some of which are beyond Jaguar's control. Except as required by applicable law, Jaguar does not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise.
