

Jaguar Health Eliminates More Than \$6.4 Million in Secured Promissory Notes to Strengthen Company's Balance Sheet

May 29, 2019

SAN FRANCISCO, CA / ACCESSWIRE / May 29, 2019 / Jaguar Health, Inc. (NASDAQ: JAGX) ("Jaguar" or the "Company"), a commercial stage pharmaceutical company focused on developing novel, sustainably derived gastrointestinal products on a global basis, announced today that the Company has extinguished all of the approximately \$6.4 million in secured promissory notes that were outstanding as of December 31, 2018, which notes the Company originally issued to Chicago Venture Partners L.P. ("CVP") in July 2017 through March 2018. The Company accomplished this reduction in indebtedness through the issuance of approximately 27,717,914 shares of common stock, at an average price of approximately \$0.23 per share, to CVP pursuant to exchange agreements entered into between the Company and CVP from January through May 2019.

"We're very pleased to have retired this debt obligation to CVP in full," stated Lisa Conte, president and chief executive officer of Jaguar. "This reduction of the Company's liabilities is a welcome development as we continue to focus on our planned clinical and commercial milestones and value recognition for our important assets and pipeline opportunities, which include our commercial product, Mytesi, launched directly into the specialty market for people living with HIV/AIDS, and our deep pipeline of potential follow-on opportunities for this first-in-class anti-secretory agent, crofelemer."

About Jaguar Health, Inc.

Jaguar Health, Inc. is a commercial stage pharmaceuticals company focused on developing novel, sustainably derived gastrointestinal products on a global basis. Our wholly-owned subsidiary, Napo Pharmaceuticals, Inc., focuses on developing and commercializing proprietary human gastrointestinal pharmaceuticals for the global marketplace from plants used traditionally in rainforest areas. Our Mytesi® (crofelemer) product is approved by the U.S. FDA for the symptomatic relief of noninfectious diarrhea in adults with HIV/AIDS on antiretroviral therapy.

About Mytesi®

Mytesi (crofelemer) is an antidiarrheal indicated for the symptomatic relief of noninfectious diarrhea in adult patients with HIV/AIDS on antiretroviral therapy (ART). Mytesi is not indicated for the treatment of infectious diarrhea. Rule out infectious etiologies of diarrhea before starting Mytesi. If infectious etiologies are not considered, there is a risk that patients with infectious etiologies will not receive the appropriate therapy and their disease may worsen. In clinical studies, the most common adverse reactions occurring at a rate greater than placebo were upper respiratory tract infection (5.7%), bronchitis (3.9%), cough (3.5%), flatulence (3.1%), and increased bilirubin (3.1%).

See full Prescribing Information at Mytesi.com. Crofelemer, the active ingredient in Mytesi, is a botanical (plant-based) drug extracted and purified from the red bark sap of the medicinal Croton lechleri tree in the Amazon rainforest. Napo has established a sustainable harvesting program for crofelemer to ensure a high degree of quality and ecological integrity.

Forward-Looking Statements

Certain statements in this press release constitute "forward-looking statements." These include statements regarding the Company's planned clinical and commercial milestones. In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "expect," "plan," "aim," "anticipate," "could," "intend," "target," "project," "contemplate," "believe," "estimate," "predict," "potential" or "continue" or the negative of these terms or other similar expressions. The forward-looking statements in this release are only predictions. Jaguar has based these forward-looking statements largely on its current expectations and projections about future events. These forward-looking statements speak only as of the date of this release and are subject to a number of risks, uncertainties and assumptions, some of which cannot be predicted or quantified and some of which are beyond Jaguar's control. Except as required by applicable law, Jaguar does not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise.
